**MNC Tips:** Goldman Sachs and JP Morgan have structured internship cycles — apply in September–October for the following summer. IBM's 'Early Professional' roles are a great entry point. Thoughtworks focuses on culture fit and TDD — prepare accordingly.

**PSU Tips:** Most PSUs recruit through GATE scores — a good GATE rank (under 1000) opens doors to BHEL, NTPC, ONGC, IOCL, Power Grid and more. ISRO and DRDO have their own written exams (ICRB/CEPTAM/RAC). BARC OCES is one of the best programmes for science & engineering graduates. Service bonds of 2–3 years are common.

**Sector Tips:** Zoho is known for hiring freshers without any bond and strong pay. Freshworks is NASDAQ-listed and a great brand for your CV. PhysicsWallah (PW) hires interns in hundreds every month. For EV companies like Ola Electric and Ather, mechanical + software hybrid skills are highly valued.

### Quick Action Checklist for Freshers

#### Resume

Keep your resume to 1 page. Add your GitHub, LinkedIn, and a summary line. Use ATS-friendly fonts (Arial/Calibri). Mention CGPA only if above 7.

#### Platforms

Register on Naukri + LinkedIn + Internshala. Upload your resume. Turn on job alerts for your target role, city, and experience level (Fresher/0-1 yr).

#### GATE/NQT

Appear for TCS NQT, Infosys InfyTQ, Cognizant GCAT, and Wipro Elite. These are the entry gates for mass IT hiring — a good score gets you multiple offers.

#### Coding Prep

Practice 100+ LeetCode Medium problems for FAANG/startups. Focus on Arrays, Trees, DP, Graphs. Use Striver's SDE Sheet as a roadmap.

#### Internships

Even 1–2 internships on your CV dramatically improve shortlisting. Use Internshala and Unstop. Convert internships to PPOs wherever possible.

#### PSU/Govt

If interested in PSUs, start GATE preparation from 3rd year itself. A GATE rank under 500 opens NTPC, BHEL, ONGC, Power Grid simultaneously.

#### Apply Early

Don't wait for your final year. Apply to internships in 2nd and 3rd year. Final placements begin in 7th semester — prepare from 5th semester onwards.

Best of luck! Apply consistently, stay patient, and keep upskilling. India's job market rewards the prepared.
